Lieferverkehr Quo Vadis?
Fachentquete Lieferverkehr

Palais Festetics
Berggasse 16
1090 Wien

Short summary:

The national BESTUFS workshop in Austria was held on 06.03.2008 in cooperation with the Vienna Chamber of Commerce. The work title was "Lieferverkehr Quo Vadis – Fachentquete Lieferverkehr" which attracted 52 participants to a one day event focussing on detailed issues concerning urban freight transport in Vienna. A variety of presentations provided information from the companies' level, as well as the political and administrative point of view. With examples from Europe, detailed facts and data and methodical approaches a wide field of discussion between the participants was opened. The workshop was a big success and further activities to strengthen, disseminate and promote the topic of urban freight transport will be planned.

Minutes

Welcome and Introduction

In the opening speeches the importance of the topic urban distribution was highlighted. The workshop indicates a further step toward developing cooperative measures by all involved actors and stakeholders. To strengthen and link local knowledge and experience with European examples is the right way to develop sustainable solutions for the future.

Presentations

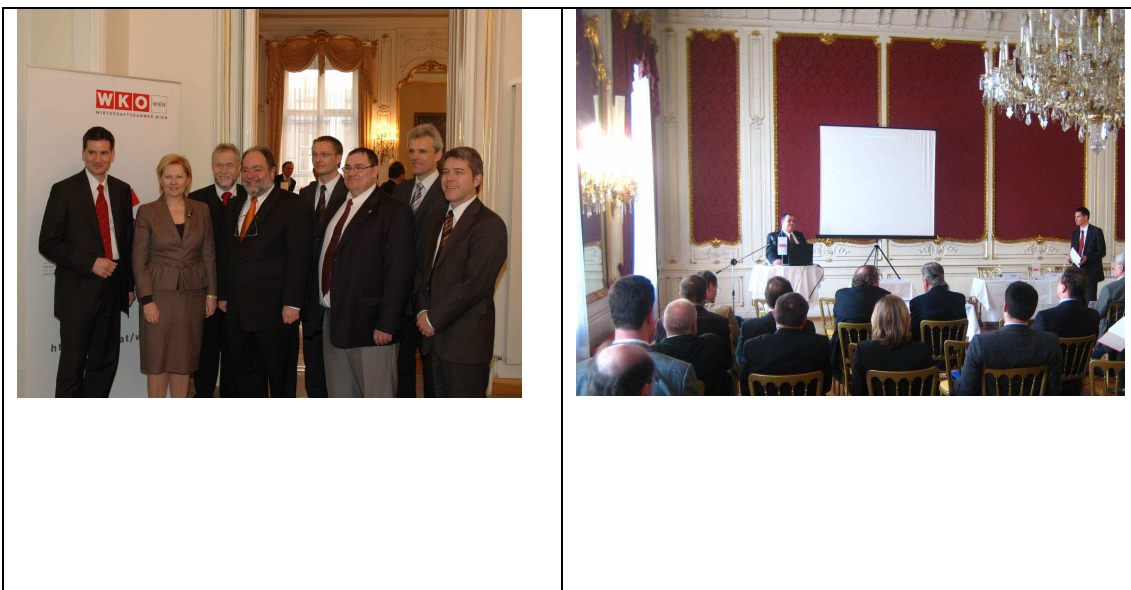

The presentations are given, each followed by a short discussion round with question and answers.

Final statements

The chairman gives a short summary of day and the presentations and points out the importance of cooperation to develop solutions. The Chamber of Commerce will keep the topic of urban freight transport on top of its agenda, and will provide support to all stakeholders. The information and inputs of this day will be disseminated into other work groups by the participants especially regarding the traffic master plan for Vienna.
