

Summary

BESTUFS II national seminar in Slovak Republic

April 23, 2008

Nakladna doprava v mestach – logistika ako cesta k trvalej
udrzatelnosti
Urban Freight Transport: Logistics – The Way to Sustainability

Garni Hotel Doprastav
Kosicka 52
Bratislava

Short summary:

The aim of the seminar was to provide the participants - representatives of regions, towns and municipalities, as well as other subjects interested in the sphere of urban freight transport and logistics - with the possibility to gain actual information and trends in the scope. The seminar was successful even though the number of participants was not very satisfying. All the participants agreed that it is the best time to start a public discussion on this issue to gain interest of relevant subjects.
